In 1866, J.H. Carter, who at the time was one of Shell Rock's most influential and prominent businessmen responsible for the development of many town operations, built the Carter House on this half-acre lot. The Carter House, also known as the Marriage House, remained in the Carter family until 1952. Star Valley Hospitality purchased and renovated this historic single-family home in 2022, and now welcomes short-term rental guests to enjoy the rich history of the town of Shell Rock!
